  Higher Secondary | Percentage : 75%

SKILLS

- Languages : Java , HTML , C++
- Tools : GitHub
- Core Competencies : Data Structures Algorithms, Networking, Operating Systems.

PROJECTS

1. URL Anomaly Detector using Random Forest

- Built a machine learning model using Random Forest to classify URLs as malicious or benign based on extracted features.
- Achieved high detection accuracy and visualized model performance using confusion matrix and ROC curve.

2. User Behaviour Analysis System

- Developed a system to analyze user activity logs and detect anomalies in behavior patterns using statistical methods.
- Created visual dashboards to highlight abnormal usage trends and potential insider threats.

ACTIVITIES AND ACHIEVEMENTS

- Completed certificate of SmartBridge Artificial intelligence.
- Engaged in a disciplined 75 Days of Code challenge centered on Kotlin and Data Structures & Algorithms; tackled 100+ coding problems, Elevated technical proficiency
- Successfully completed the GFG 80-Day Coding Challenge in Kotlin.

ADDITIONAL

- Hobbies – Reading books , GYM , Swimming .
- Languages : Englsh , Hindi.
- Certification : SmartBridge Artificial Intelligence , MATLAB .
